

FIS/ShopConnector

UNIVERSAL CONNECTION OF YOUR SHOP TO SAP S/4HANA

Seamless
SAP integration

Universal interface
for your shop

Quick
go-live

Small investment –
great effect

Do you already operate your own online store but have to spend a lot of time and manual efforts to transfer the purchase orders to your SAP S/4HANA system? Do you also think the subsequent processes could be triggered more quickly and in an automated way?

We have the solution:

The FIS/ShopConnector seamlessly connects your shop processes with the process flows in the SAP system. Through maximum automation, you avoid the manual typing of Excel lists, reduce errors and have more time for more important tasks.

**FOR HIGHEST DATA QUALITY:
TRANSFER WITH INTERMEDIATE STOP**

The FIS/ShopConnector enables you to monitor and, if required, process all orders prior to transferring them to the SAP system – for more control and security.

**YOUR BENEFITS WHEN USING THE
FIS/SHOPCONNECTOR**

- **Perfect for all who are in a hurry:** quick and easy connection of your Web shop to SAP
- **No complex in-house developments:** interfaces are included in the standard version
- **Connect more than one data source:** Open Master Data (OMD) or shop connections of third-party apps and many more
- **Win-win:** you save personnel costs for manual efforts through the automation of your back end – and your employees can spend their time on more relevant tasks.

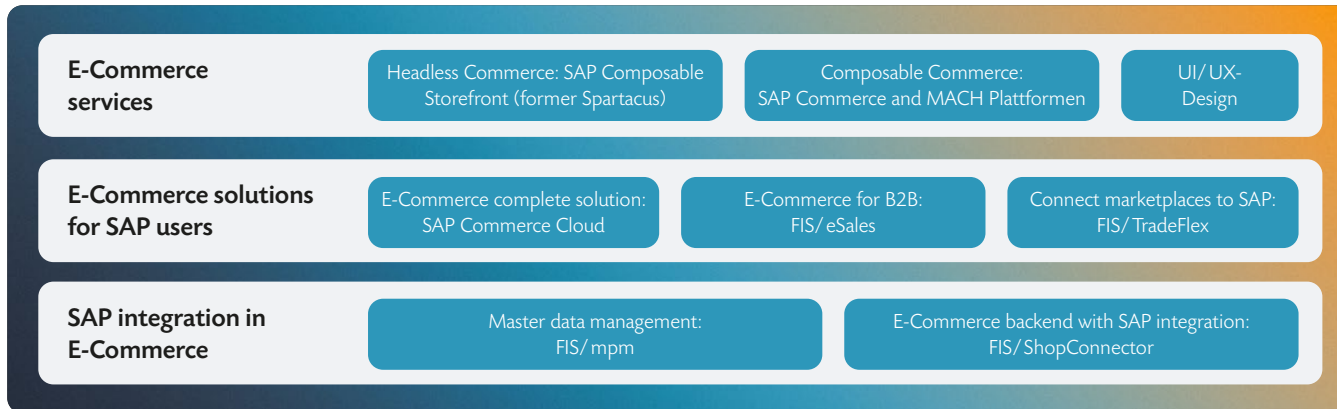

**WOULD YOU LIKE TO CONNECT FURTHER
APPLICATIONS TO YOUR SAP SYSTEM IN
ADDITION TO THE WEB SHOP?**

The **FIS/ShopConnector** enables you to monitor and, if required, process all orders prior to transferring them to the SAP system – for more control and security.

The **FIS/ShopConnector** can also be used to integrate apps, your CRM system, the corporate homepage or in-house software developments into your SAP system. This will be helpful if, for instance, a spare parts app is to select data directly from the SAP system. Or if you wish to map orders on your homepage in real time. Do you perhaps have a very individual use case? Please feel free to contact us.

**FIS/ShopConnector: an interface for all orders in
your SAP system.**

HIGHLIGHTS OF THE FIS/ SHOPCONNECTOR

- Create orders with reference to existing quotations or release orders
- You have the choice: select from different delivery types the one that is most appropriate for you
- The overview displays where the requested article is available, for instance in which stores and branches
- Uncomplicated back-end management for monitoring and evaluations
- More clarity due to standardized price communication across all systems
- Finding data more quickly: no more lengthy scrolling and clicking due to the search engine with fuzzy logic and classification data
- All at a glance: view documents together with the associated order history
- Returns? Benefit from the integrated returns function for quick processing

TOGETHER WE ARE STRONG

Together, Medienwerft and FIS - two companies of the FIS Group and certified SAP partners – cover the entire range of SAP Customer Experience. They offer the all-in-one package for marketing, sales and distribution, service and e-commerce: from consulting, conception and design to technical implementation.

FIS Informationssysteme und Consulting GmbH is the roof of the FIS Group. FIS mainly focuses on individual SAP consulting and the execution of SAP projects. In the area of Customer Experience, FIS is the expert for SAP processes and their technical integration.

Medienwerft GmbH is one of the most experienced internet agencies in Germany. Its core competence is the development of e-commerce applications and digital communication concepts for brands. This makes Medienwerft an expert for UX design, e-branding and web shops.

Together, FIS and Medienwerft are strong partners for SAP and Customer Experience.
