

FIS WAREHOUSE CHECK

WE HAVE A LOT IN STOCK FOR YOU!

How efficient are your logistics processes? You want to use the full potential of your processes and do not know how to do it?

By means of targeted optimizations, you can increase your pick performance, accelerate storage in goods receipt, ensure on-time provision of goods for routes and, at the same time, reduce error rates.

By using **FIS Warehouse Check**, we will find approaches how you can raise your intralogistics to a new level with small steps and suitable technologies.

Let us analyze your daily challenges together and streamline your goods receipt and internal warehouse processes as well as your goods issue processes.

FIS WAREHOUSE CHECK

WE WILL CHECK THAT OUT

Are your logistics processes still up-to-date and flexible to fulfill the increasing market requirements, meet your company-specific challenges and, at the same time, enable comfortable working for your employees?

With FIS Warehouse Check, our experts will show you potentials as to how you can optimize your logistics processes and make your SAP system more efficient and ergonomic.

Minimize efforts. Maximize efficiency.

By using our proven and comprehensive analysis method, our consultants inspect your warehouse, attend your users in their daily work, check your Warehouse Management system for up-to-dateness, find possible inefficiencies in the process flows and show you potentials for improvement.

Subsequently, we will create a management summary for you, including an evaluation of the current situation and the findings gained as well as precise recommended actions.

We provide you concrete indications as to where untapped potential can be found in your SAP system. Ergonomic, master-data-based and guided working, efficient use of storage bins, lower error rates or faster initial job training of new employees are only a few examples of how increasing key performance indicators can be achieved by means of process and function improvements.
